

SPARE PARTS BROCHURE

Compressors

Via our channel of suppliers, we have an extensive range of OEM and replacement spare parts for most of the marine air and refrigeration compressors.

Our team of engineer's workshop design and produce spares in accordance with the most stringent international quality standards.

This allows us to provide all the necessary components to overhaul a compressor, from a small gasket to major items such as blocks, heads, and crankshafts.

At the moment we supply complete reconditioned units, rebuilds and tested in the suppliers workshop. Please find here below list of brands and models available.

Separators

We have developed a global network of trusted and tested suppliers that, alongside with our computerized system, allows us to select the spare parts' sources and become overall extremely competitive.

In addition, we can quote and sell spare parts for Alfa Laval separators, plate heat exchangers and fresh water generators. Please find here below list of brands and models available:

Alfa Laval

Types: B - BRPX - FOPX - LOPX - MAB - MAPX - MARX – MB – MFPX – MMPX– MIB – MOPX – MSPX – P – PA – S – SA – SU – WHPX – WSPX

Mitsubishi

Types: GP – OP – SOP – SJ

Westfalia

Types: AG – GS – ON – OSA – OSB – OSC – OSD – OTA – OTB – OTC – SAOG

RWO

Types: GSF - SKIT S - DEB

Blohm & Voss / HDW Turbulo

Types: TCS - TF - TEF - TE1F - TE5F - TMPB - TPC

Many other brands and types are available on enquiry basis.

Pumps

Our computerized system enables us to classify more than 40.000 different items and drawings. For this reason, we can meet any spare parts requirement for more than 650 different pump's types used in the marine business.

Our program of complete brand-new units, new and reconditioned centrifugal in line pumps and new low-pressure screw pumps allow us to solve immediately most of pumps' ship needs.

Please find here below list of brands and models available:

Termomeccanica

Types: UBV - UBVDE - CDV

Garbarino

Types: MU series - BT series - CN series - P series

IMO

Types: ACE - ACD - ACG - ACP - ACF - ABF - ABQ - LPQ - LPD - ALD

Allweiler

Types: ACE SON - SPZV - SR - S3F - SCF - SEBP - SEP - SCS - SNF - SPF - SPZ - SLS - SNS - SOB - ADBP - AE - CHT - CLT-H - CNH-B - CTW-H - LV - NTWH - NTT - NT - NHT - NB - NAM - NI - NISM - NIM - MA - MI - ZAS - ZASV - 135 - 211 - 215 - 216 - 231

Thune Eureka

Types: ACE CGB - CGA - CGC - CGD - CGE - C12 - C32 - C42 - CAD - CM40 - CAC - CAB - CL150 - C2G

JMW

Types: Z12 - Z16 - Z222 - Z233

Hamworthy

Types: B - C - D - 3X2 - 5X3 - 5X4 - 6X5 - 8X6 - 10X10 - 12X12 - 14X14 - 16X16 - 18X18 - 2C

Consilium - Systems for Safety, Environment and Navigation

We are exclusive agents in the Principality of Monaco for **Consilium Marine & Safety AB**.

Consilium is one of the world's leading suppliers of fire and gas detection, navigation and emission monitoring systems for ships, property, transportation and the oil & gas industry.

Consilium develops and markets products and systems for safety and navigation. The guiding star in Consilium's selection is to contribute to safeguarding people, the environment and material values.

Consilium has a worldwide network of subsidiaries and agents in order to provide the best support for our customers.

Our support includes everything in the range from service and maintenance of all our systems to spare parts and full retrofit installations. Marine safety is our key business; therefore, we work in close corporation with our customers and users in order to know their needs and requirements.

Consilium is represented through subsidiaries and agents in more than 50 countries including all major ports around the world. To further increase the service and availability of spare parts, all our subsidiaries are able to handle all enquires and demands.

Please find below list of products:

- ARPA Navigational Radar
- SELESMAR
- ECDIS
- Logs/Echo Sounders SAL
- Voyage Data Recorders
- Integrated Navigation Systems
- Bridge Watch Alarm Systems
- SALWICO Fire & Gas Detection Systems
- SALWICO Environmental Monitoring Systems (ambient oil mist, opacity monitor, oxygen analyzers)
- Emission Monitoring Systems

AEGIR Marine B.V. & Propulsion Service

We are exclusive agents in the Principality of Monaco for **AEGIR-Marine B.V. & AEGIR-Marine Propulsion Service**.

Since its foundation in November 2000, AEGIR-Marine has transformed from a small service-directed company to a maker independent organisation for stern tube seals and bearings, with offices in The Netherlands, Shanghai, Singapore, Namibia and the USA, as well as sales representatives in many countries. As an ISO 9001 (2000) certified company, AEGIR-Marine values quality and service to the highest level reachable.

AEGIR-Marine provides service on any type of stern tube seal when a vessel is in dock or afloat. They can even provide service underwater, for which they have an exclusive partnership with UPE in Vlaardingen. With service engineers all over the world, they do not have any restrictions regarding service locations – AEGIR-Marine can help you anywhere you need them to be.

To meet their own service standards, AEGIR-Marine has its own PRIME spares suitable for systems installed by Wärtsilä, Dover Japan, Japan Marine Technologies and many more on stock. They can also supply liners, spacer rings, zinc anodes, net cutters and all consumables suitable for every type of 'lip-type' stern tube seal installation – all from their warehouse in the Netherlands. AEGIR-Marine very own PRIME sealing system, type-approved by many class societies, has been tested to be equal to – if not better than – sealing systems supplied by the major original manufacturers.

To assist their customers further, AEGIR-Marine founded AEGIR-Marine Propulsion Service (AMPS) in January 2009. This division is specialised in repair and maintenance of bow thrusters and propulsion units, which can be done in their warehouse, in-situ or when a vessel is in dry-dock.

For more information visit: www.aegirmarine.com.
