## Acid Cleaner

### Scale Remover Liquid

Acid based liquid descaling. Removes heavy deposits of rust and water scale.

Due to its inhibitors product can be used on most common metals, except on zinc, aluminium, stainless steel, galvanized materials. Anywhere existing iron oxides and scale. In the water systems boilers, heat exchangers, condensers, cooling circuits.

### Scale Remover Powder

Acid cleaning product in powder form, to remove rust and scale in water system.

Due to its inhibitors it can be used safely on all common metals, nonferrous metals rubber plastic jointing compound. Anywhere existing iron oxides and scale in the water systems: boilers, heat exchangers, condensers, evaporators, cooling systems.

### Metallic Brite

Liquid acid cleaner to remove rust stains on most common metals and also on painted surfaces. Based on acid, surfactants and corrosion inhibitors
