## Consilium: Systems for Safety, Environment and Navigation

SF Marine is the agent for **Consilium Marine & Safety AB** in the Principality of Monaco

Consilium is one of the world's leading suppliers of fire and gas detection, navigation and emission monitoring systems for ships, property, transportation and the oil & gas industry.

Consilium develops and markets products and systems for safety and navigation. The guiding star in Consilium's selection is to contribute to safeguarding people, the environment and material values.

Consilium has a worldwide network of subsidiaries and agents in order to provide the best support for our customers.

Our support includes everything in the range from service and maintenance of all our systems to spare parts and full retrofit installations. Marine safety is our key business; therefore, we work in close corporation with our customers and users in order to know their needs and requirements.

Consilium is represented through subsidiaries and agents in more than 50 countries including all major ports around the world. To further increase the service and availability of spare parts, all our subsidiaries are able to handle all enquires and demands.
