Electro Cleaners

Electro Non Flash

Non-conductive solvent for degreasing and removing oil-grease, soil contamination and electrical equipment. Product with high evaporation rate safe to use on all common metals and on most of non-ferrous components.

Electro Non Flash must be used cold and undiluted; preferably by spraying, by brush, by wiping with a clean lint free cloth or sometimes by a soaking solution in a tank per immersion method.

It is used for cleaning electric motors, generators, commutators, wipers, gauges and other electrical assemblies.

Arbosol Electro Stand & Arbosol Electro Slow

Industrial degreaser containing petroleum solvents and fluorinated solvents.

Both comply with EEC directives published by the Journal of the EEC on July II ND, 1973.

For your RFQ requests contact Maristella Bianco
