Maintenance Products

Penetrating Oil

Multi-functional cleaner on water-base. This degreaser is non- toxic and for more than 90 % biodegradable. This product has been developed in our laboratories with a special attention for the protection for the environment. It gives complete safety to the users and replaces all common degreasers such as chlorinated solvents, neutral and water-based detergents.

Can be applied for: Removal of greases, sludge, polymer compounds, oils...Easy removal of general dirt
Cargo tank cleaning after animal, vegetable and fish oils
Security and storage: see safety data sheets.

Cold Degreaser

Liquid product emulsifying cleaning compound specially formulated for removing mineral oils and fats. This product is neutral and safe to use on common metals and painted surfaces. It can be used anywhere existing mineral oil contamination as well as undiluted or diluted by re-circulation method.

The product has to be sprayed undiluted on the components or areas to be cleaned. Let it soak for 30 min. approx. and then rinse with water.

Cold Degreaser can also be used as tank-cleaner for removal of mineral oils. For this purpose, it must be diluted at 1% by re-circulation method or even one per thousand by injection method into the BWT lines. Spray method can be also used in small tanks.

Seacleaner

Strong liquid degreaser based on hydrocarbon compounds and biodegradable surfactants for removing heavy mineral oils and fats, asphalt, carbon black, etc... can be used anywhere existing heavy contamination particularly designed for removing aromatic mineral oils and fats.

Neutral product to be used on most common metals and painted surfaces.

MPD 70

Universal purpose cold degreaser cleaning chemical with rapid demulsifying effect, free from halo genes. It is a free aromatic compound main consisting of naphthenic hydrocarbon solvents on which a cleaning concentrate has been added.

Its specific characteristic is a very high penetrating and absorbing power MPD 70 cleans and removes easily mineral and lubricating oils, fats, rust and surface pigments.

It is also applicable for the removing of resins, carbonized residues, tar and non-oxidized paints and varnishes.

Arboxyl 20/100

Clear liquid, blended with biodegradable wetting agents & esters. Product doesn't contain any hydrocarbon solvents, no topical aromatics and has no flash-point.

It has been recently developed in our laboratories and have a famous World-wide result. It is one of the safest industrial degreaser.

Bio Oil Spill Remover

Oil spill dispersant concentrate and exceptionally low toxic. It has the full approval of LABO ECCA regarding performance, efficiency and acceptable toxicity respectively (Specifications: dispersants for Oil Spill Clean-up operation at Sea, on Coastal Waters and Beaches, Warren Spring Laboratory Report LR 193).

This product is 100% biodegradable and is primarily intended to be used when dealing with oil spillage at sea but may also be very successfully used for inshore situations.

In addition, Bio Oil Spill Remover, will very effectively clean oil from beaches when diluted in seawater.

Biocleaner Heavy Duty

High tech degreaser specially developed to clean very soiled surfaces. This degreaser is non - toxic and for more than 100% biodegradable. It can remove very easily strong greases, oil or even coloured ink.

Marsol Cleaner

Multi-functional cleaner on water-base. This degreaser is non – toxic and for more than 90 % biodegradable. Morsol Cleaner has been developed in our laboratories with a special attention for the protection for the environment.

Hygienic Cleaner

Liquid, light alkaline, universal cleaner with a high cleaning power. Product needs no distinctive safety marks. Hygienic Cleaner is used in manual, spray or high pressure applications. Product cleans machinery, parts of machinery, kitchens and its apparatus, walls, tiles, floors and windows.

Universal Wash

Used as wash-up product in meat-, fish-, and dairy-industry, offices, hotels and shipping. This product can also be used to clean and/or degrease floors, walls, etc. It makes the dishes clean and shine.

The product dries without leaving any marks and doesn't attack any surfaces and does not irritate the skin and is safe for the environment.

Universal Wash contains a foam-stabilization and a water de-harder, the product cleans and emulsifies the grease and dirt very quick and easily and has an agreeable smell.

Boiler Cleaner

Strong alkaline liquid degreaser for removing edible oils, hard oils and fat films. Easily by saponification and emulsification. Product to be used on most common metals except aluminium zinc and galvanized alloys.
