

## SF PRO

SF PRO is a brand that is part of SF Marine which has the aim to provide the best quality cleaning and maintenance products for a professional use. As of today, SF Pro produces and delivers these unique products (about 30 of them), works as a Ship Chandler and provides professional cleaning machinery.

The brand was originally conceived for delivering quality cleaning and maintenance products to yachts but the resourcefulness, experience and foresight of SF Pro and SF Marine founder Stefano Franzini enabled the brand to grow and expand into this very unique market of professional cleaning.

SF Pro has therefore found the right formulations for the creation of efficient, environmentally friendly and effective cleaning products which comply MARPOL Regulations.

The product range of SF Pro encompasses Maintenance and Renovation, Household, Engine and Bilge Cleaning, Water Tank Disinfection, Interior Surface Cleaning, Deck Maintenance and Comfort on Board products. There are also, as mentioned above, Cleaning Machines, and products for cleaning pools provided by Sanit.

All products with surfactants with primary biodegradability more than 90% and ultimate aerobic biodegradation complying with Reg. (EC) No. 648/2004.

### Maintenance and Renovation

	<b>SF PHOS</b>	<b>Phosphoric Acid-Based Detergent</b>
	<p>A phosphoric acid detergent that will remove the rust and scales left by the water. It is used to clean stainless steel, plastic tanks, equipment, propellers and any water residue or rust left on the surfaces. It is used for cleaning the body of the boat after a high-water pressure cleaning.</p>	

	<b>SF CLINOX</b>	<b>Cleaning, Polishing and Protective specialty product</b>
	<p>It not only cleans but also leaves a protective coating on the Stainless Steel, Gel Coats, Wood and Plastic Surfaces</p>	

	<b>SF POLIS 28</b>	<b>Cleaner and Rust-Remover for Stainless Steel, Copper and Bronze</b>
	<p>A soft abrasive polish to be used for the removal of rust and oxidation stains from stainless steel, copper and bronze surfaces.</p>	

	<b>SF POLISH PRO</b>	<b>Gel Coat Polishing Cream</b>
	<p>This polish, designed in collaboration with shipyard technicians, can clean and varnish fibre glass gel coat and paint surfaces on the deck and hull by eliminating salt residues and smears.</p>	

### Engine and Bilge Cleaning

	<b>SF KLINEKO</b>	<b>Vegetal Solvent Based Degreaser Detersolvent</b>
	<p>Great for floor and other surfaces, this deter solvent can be used to clean oil grease, tar, vegetal oils, mineral oils and paint residues. It is formulated with vegetal biodegradable solvents together with surfactants and emulsifiers. The perfect product for engine rooms, walls and any kind of greasy surface.</p>	

### Deck Maintenance

	<b>SF REKORD</b>	<b>Floor Detergent Degreaser</b>
	<p>SF Rekord is a concentrated alkaline solution for cleaning teak and exotic woods from dirt, grease stains and salt. It is also safe to use on fibre glass.</p>	

	<b>SF LINOTEAK</b>	<b>Natural Protective Oil for teak decks</b>
	<p>An oil-based sealer that enhances the look of the wood. It closes the pores avoiding the salt water (or any other spillage) to penetrate through the teak</p>	

	<b>SF TEAK (Concentrated)</b>	<b>Detergent for cleaning and whitening wood teak surfaces</b>
	<p>SF Teak Concentrated is a one-off slightly acid detergent and whitener to regenerate wood teak surfaces. It is especially used to remove saline traces and rust stains from teak surfaces.</p>	

### Maintenance and Renovation of Plastic, Glass and Fabric

	<b>SF PERLE</b>	<b>Glass Cleaner with Water Dripping Effect</b>
	<p>This product must be used for windscreen cleaning, window glasses and shower glass walls. It cleans the surfaces leaving a protective coating that allows the water to drip away.</p>	

	<b>SF CHANT</b>	<b>Multipurpose Degreaser Detersolvent</b>
	<p>A cleaner for seat covers, cushions, furniture and rubber/inflatable boats. It is based on natural solvents and it be used either pure or diluted.</p>	

### Comfort on Board: The cleaning of the interior surfaces

	<b>SF SANIDART</b>	<b>Rapid Sanitizer Cleaner</b>
<p>SF Sanidart is a ready-to-use cleaner with sanitizing effect. It is based on Quaternary ammonium compounds and Chlorhexidine. The product must be sprayed on the surfaces and it eliminates the bad smells.</p>		
	<b>SF SANY</b>	<b>Biological Deodoriser</b>
<p>This product is a blend of special non-pathogenic bacteria strains that produces enzymes which digest organic residuals. It keeps clean and deodorized the sewer lines of toilets in boats and it activates the decomposition of the organic matter in the septic tanks.</p>		
	<b>SF KARAPID</b>	<b>Ready to use Surface Degreaser</b>
<p>This degreaser which easily removes finger marks, ink spots and grease from work surfaces, equipment's, filters, extractor hoods and steel surfaces.</p>		
	<b>SF LOUK</b>	<b>Low Residue Neutral Detergent</b>
<p>A cleaning product that cleans well and does not leave any trace on the surfaces. It also does not require rinsing and can be used in small quantities to remove dirt from floors and many other surfaces.</p>		
	<b>SF ECSTÀ</b>	<b>Low Foam Carpet and Textile Detergent</b>
<p>The low foam detergent can be used for carpets and textile chairs and sofas. It should be used with injection-extraction machines.</p>		

### Household Products

	<b>SF DISH</b>	<b>Hand Dish Washing</b>
	<p>A no-foam detergent for hand dish washing. It cleans the dishes by simply pre-soaking them in the product, the no-foam properties allow for a rapid rinsing. In case of a direct discharge into the sea no foam will be produced in the waste water tank.</p>	

	<b>SF LAUNDRY LIQUID</b>	<b>Liquid Laundry Detergent</b>
	<p>It is a laundry detergent to be used for hand washing or machine washing of any kind of fabrics. It has great softening properties and is suitable also for delicate garments like wool or silk. SF Laundry liquid contains a low level of phosphate.</p>	

	<b>SF LAUNDRY POWDER</b>	<b>Powder Laundry Detergent</b>
	<p>The powder detergent contains enzymes and oxidizing agents and it is to be used in laundry machines. It also contains a low level of phosphates and controlled bleaching powder.</p>	

### Water Tank Disinfection

	<b>SF ZYM</b>	<b>Concentrated Bacteria Strain for the Treatment of Waste Water Tank</b>
	<p>SF Zym is based on a living bacterium that decomposes and liquefies organic matter, fats and oil residues from the kitchen to the shower drain. It is very effective in controlling the odours in the waste water tank.</p>
